General Contracting Division

The IEM General Construction Mission:

IEM's General Construction Division will provide our clients with the highest quality construction services at the best price, the best schedule, and the most customer satisfaction.

Planning is customized to the budget and needs of the client.

What does the customer get from our GC Division?

IEM does procurement and submittals for material, shop drawings and scheduling have been tailored to insure smoother execution of on-site construction activities.

Most importantly, quality, cost control and safety are supremely important to us.

IEM has executed a wide variety of projects:

Pre-engineered steel buildings.

Concrete tilt-up and hi-spec concrete.

General construction.

Conventional, masonry, or pre-engineered building.

Custom building engineering consultation

Professional renovation services to meet the needs of your changing and growing business.

Concrete slabs on grade, slabs on elevation, pits, machine foundations, cutting, and coring.

Offices, partitions, finish work, flooring, painting, and cleaning.
