Electrical Contracting Division

How good are we?

IEM's Electrical Division is managed by unlimited license electricians.

Do you need electrical personnel on a temporary basis?

IEM can supply the people for as long as you need them.

IEM's service is the reason for its success.

Our Industry Expertise Includes:

Chemical – Processing & Storage

Commercial – Maintenance to Design

Electrical Boiler Maintenance

Foundry – Start-up & Maintenance

Lumber – Primary & Secondary Wood

Manufacturing Facilities – Fiberglass to Housing

Medium & High Voltage Cabling & Gear Installations

Municipality Improvements & Maintenance – Pumping Stations to Treatment Facilities

What does the Electrical Division provide?

IEM's electrical engineering team provides free consultation and AutoCAD prints for completed jobs.

How comprehensive is the Electrical group?

IEM can take a motor control project from an idea or design, prepare a wiring diagram, determine the components for the enclosure and complete a fully automatic control system for a variety of commercial or industrial applications.

Do you require professional diversity to get your project completed?

IEM offers a wide variety of services and products to meet our customers' needs and to help them insure maximum productivity, minimum downtime, reduced operational and maintenance costs, and optimum safety.

Need someone quick?

At **IEM** all of our trucks are equipped with cellular telephones, and our electricians are cross-trained as trouble-shooters of controls and motors, giving us tremendous flexibility.

Our reputation is our most important asset and every employee of IEM Electrical Division takes seriously their responsibilities in helping establish and maintain friendly, long-term, and professional relationships with our customers.
